COLUMBIA'S AGONY

"The volcano erupted too soon," said one government official as he surveyed the area," and no one was expecting it." Nevado del Ruiz a 17,716 foot volcano had been dormant for years but within hours of its reawakening, thousands were missing, homeless, or dead, and an entire village of 22,000 had disappeared under fifty feet of mud and debris. As the volcano erupted, it melted thick snow that had fallen along the top 2,000 feet of its peak. The force of the eruption was so great that part of a side of the volcano blew off as well. While rescue and evacuation efforts are helping, it is feared that the worst is not over as the volcano's rumbling has caused two other volcanos nearby to awaken.

AIRPLANE DISASTERS

'Never a year so bad' was the theme of this year's record number of deaths due to airplane crashes. The numbers are terrifying; the accidents too frequent. This year's five biggest in order of occurance are as follows: February 19, an Iberian 747 crashed in Spain killing 148, June 23, an Air India 747 crashed off the Irish coast killing 329, August 2, a Delta Lockheed 1011 crashed in Dallas killing 134, ten days later on August 12, a Japanese 747 crashed in Japan killing 520, and yet another ten days later on August 22, a British Airtours 737 crashed in England killing 54 people. Of the five crashes, one has been due to a bomb, one to ruptured fuel tanks, and the remaining three due to problems with the tail section.

TERROR ON FLIGHT 847

After a long delay in Athens, T.W.A.'s flight 847 and her 145 passengers were relieved when the plane left the airport on its way to Rome. Ten minutes later the plane was hijacked by terrorists. The terrorists first demanded that pilot John Testrake, take them to Beirut. After arriving in Beirut, the plane was refueled and the hijackers released 17 women and 2 children but not before they had brutally beaten and shot a young American Navy diver. Three days later the man was identified as Robert Stethem. After flying back and forth between Beirut and Algiers several times, the hijackers released the remaining women and children. The men were then taken back to Beirut where they were kept in Shite neighborhoods until negotiations began. After seemingly endless negotiations and rumors of agreement, the hostages were released and flown home thus ending their 25 day nightmare in the Middle East.

MEXICO JOLTED

On September 19, the residents of Mexico City were awaken by an earthquake that measured 8.1 on the Richter Scale and left 20,000 dead and almost 150,000 homeless. A five to ten square mile area in the center of the city bore the brunt of the devastation which knocked down and crumbled some 900 buildings of which 200 were government offices. For days after the quake modern miracles were seen as survivors were dug out of the rubble by French and German rescue teams. Among those found were newborn babies in the basements of fallen hospitals and families in the rubble of their homes. Often those found alive had been kept alive by pockets of air that had been trapped above them. While relief aid is being poured in from everywhere, the government's biggest fear is that of more possible devastation due to aftershocks.

THE "GIPPER" UNDERGOES SURGERY

President Reagan underwent surgery this July to have two growths in his colon removed. Reagan was under the knife for 2 hours and 53 minutes while doctors at Bethesda Naval Hospital removed an 18-inch section of his intestine and the nearby lymph nodes. The surgery was prompted after a routine physical found the mysterious growths. Because of their tendency to become cancerous, it was decided to cure the problem before a real one started.

NIGHT STALKER REIGNS TERROR

Even when the heat reached a stifling 108°, few Californians left their doors and windows unlocked or opened. The reason; the famed "Night Stalker", a serial killer who entered houses to attack and sometimes kill the occupants. While most of the sixteen murders and eight attacks linked to the killer have been in the San Fernando and San Gabriel Valleys, a few linked to the killer have also occurred in San Francisco. When the police asked for help the public responded. Among the clues found was an orange Toyota Station wagon which the killer used, and fingerprints. The suspect was later identified as Robert Ramirez of El Paso. Just a day after the identification was made, Ramirez was arrested in East L.A., after being chased by a crowd who saw him trying to steal a car.

TERROR ON THE ACHILLE LAURO

The Achille Lauro, an Italian oceanliner, was hijacked on October 7. On board were some 755 passengers. The hijackers demanded the release of 50 Palestinians being held in Israeli prisons in return for the freedom and safety of the passengers on board. Surprisingly, there was only one death throughout the 52 hour ordeal. The hijackers shot a 69-year-old American, Leon Klinghoffer, in the head and then threw his body overboard. The terrorists surrendered the ship the next day after they were told they would be given safe passage out of the country by Egyptian President Mubarak. On its way to neighboring Tunis, the terrorists' plane was forced down by four American F-14 Tomcat fighters from a nearby aircraft carrier. After their capture, it was promised they would stand trial. They are charged with murder, kidnapping, and possession of arms and explosives.

NOVEMBER SUMMIT

November 19 and 20, marked the beginning of a renewal of Soviet and American ties when Soviet leader Gorbachev and President Reagan met in Geneva for two days to discuss world politics. Among the issues discussed were security issues such as the Star Wars Defense System and arms control, and regional issues having to do with such areas of the world as El Salvador, Nicaragua, and Afghanistan. One newsman described it as, "... inconclusive arguments about fundamental issues." The talks did end on an upbeat note however with an agreement to meet again and a presidential invitation for Gorbachev to visit Washington next spring.

People In The News

PENN AND MADONNA WED

''Welcome to the remaking of 'Apocalypse Now' '' Sean Penn said as he greeted guests. He was referring to the six helicopters that flew overhead trying to get a glimpse at Penn and his bride, rock singer Madonna. Said one guest about the situation, ''No one knew they were married until they kissed.'' Among the guests were stars such as Cher, David Letterman, Diane Keeton, and Andy Worhol. Surprisingly enough, the bride wore white — well off-white — not black as previously announced. The only black to be seen was a black chapeau whose brim held her long, white veil.

ROYALS VISIT U.S.

''The British are coming'' was the rallying cry throughout Washington D.C. as the city prepared for Prince Charles and Princess Diana to visit. While here the couple inaugurated an English display of antiques in a D.C. museum, attended several state dinners (to which few were invited), and honored the dead at Arlington National Cemetary. In spite of all this, they did manage to find time to relax and enjoy themselves. Charles, for example, played a bit of polo, while Diana and Mrs. Reagan visited a drug rehabilitation center to encourage the youth there. Diana also acted as an Angel of Mercy, visiting four terminally ill patients. ''She was bigger than life,'' patient Johnette Clark remarked. All were thrilled by her presence. The couple, during their entire stay, kept their charming atmosphere alive, and portrayed America's picture of proper British loyalty ... and we were captivated!!

MUSIC MANIA

Bruce Springsteen, known as ''The Boss'' to his fans, broke many hearts when he wed ex-Elite model, Julianne Phillips. The wedding took place in late June at Lake Oswega, Oregon. Shortly after, the Boss went on tour, all over America, to steal the hearts of many on his Born in the U.S.A. tour. Springsteen fans were exhilerated by his marathon performances in late September. Prince fans were granted a new album, Around the Worlo in a Day, in early August. This album featured such hits as Raspberry Beret and Pop Life. Adam Ant pleased his ever-wanting fans with his Vice La Rock tour. His fans were captivated with his performance of their favorites such as Strip, Goody-Two-Shoes, and, of course, Vive La Rock. Oingo Boingo renewed their old fan's fondness and gained new fans with their new album, Deadman's Party, and the hit single from it, Weird Science. They also had a Deadman's Party tour which reached us Halloween Night, at the Pacific Ampitheather. Duran Duran lovers got a new group to swoon over, Arcadia. This group features Nick Rhodes, Roger Taylor, and Simon La Bon; all from Duran Duran. Arcadia released their first album ''So Red the Rose'' in late October.

SAMANTHA SMITH DEAD

Samantha Smith, America's youngest ambassador, died in an airplane crash at the age of thirteen. Samantha will be remembered as the little girl whose 1982 peace plea to Yuri Andropov persuaded the Soviet leader to invite her to Russia to ''See for herself how much the Soviet people want peace.''

ROCK HUDSON DEAD

Actor Rock Hudson died on October 2, 1985 at his home in Beverly Hills from the dreaded disease AIDS. He was 59. Hudson had suffered from the disease for a year before it became public knowledge, three months before his death. He will be best remembered for his films such as ''Pillow Talk'', ''The Star Maker'', ''McMillian and Wife'', and most recently as Daniel Reese on ''Dynasty''. Most of all Hudson will be remembered as former colleague Ronald Reagan put it ''for his humanity, his sympathetic spirit, and well deserved reputation for kindness.''

RETURN OF A CLASSIC

July 10, 1985 was a day of rejoicing for Coke fans everywhere. It was then that the manufacturers of the soft drink Coca-Cola announced they would brink back the taste of the ''Old Coke'' to be known forever more as Coca-Cola Classic. The announcement came after three months of protest during which the Coca-Cola headquarters received some 1,500 phone calls daily as well as thousands of letters. As one company executive put it, ''... people had fallen in love with the memory of old Coke.''

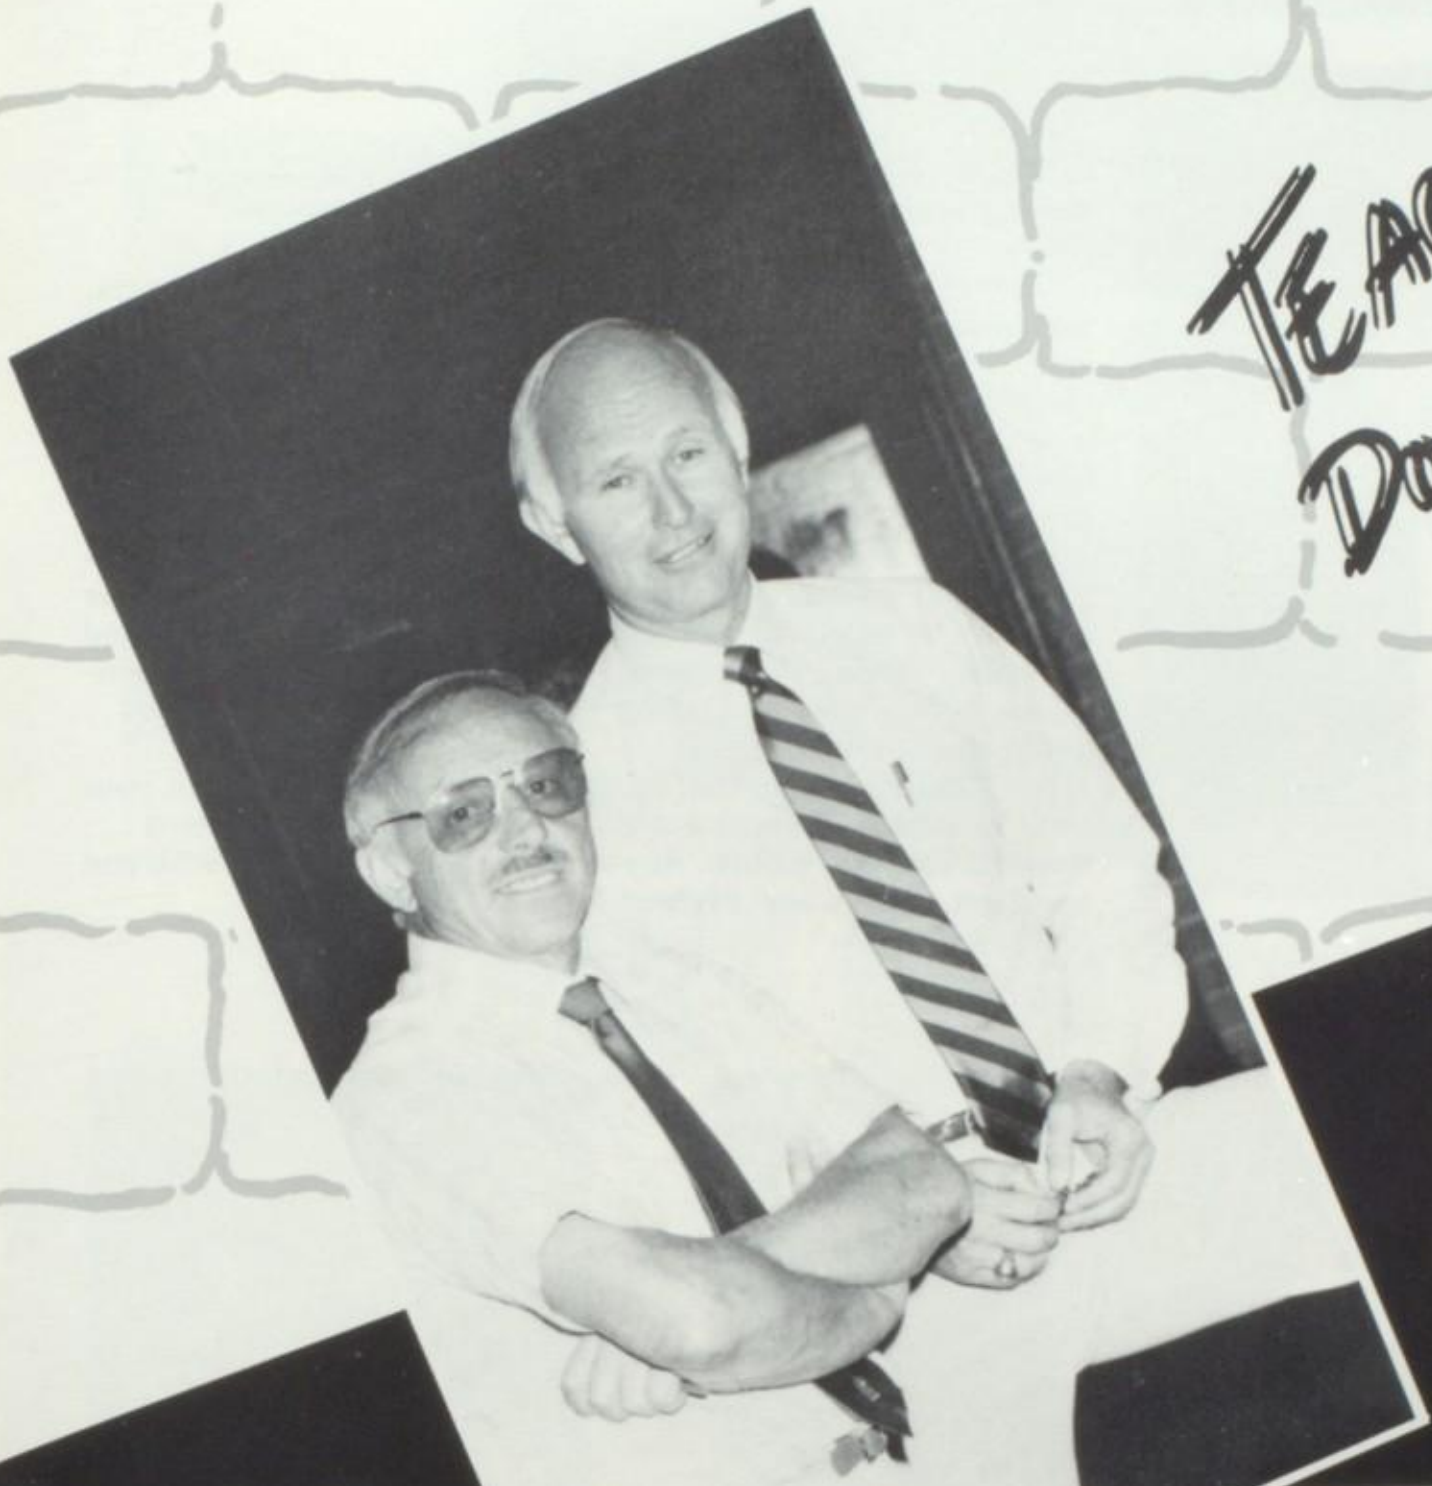
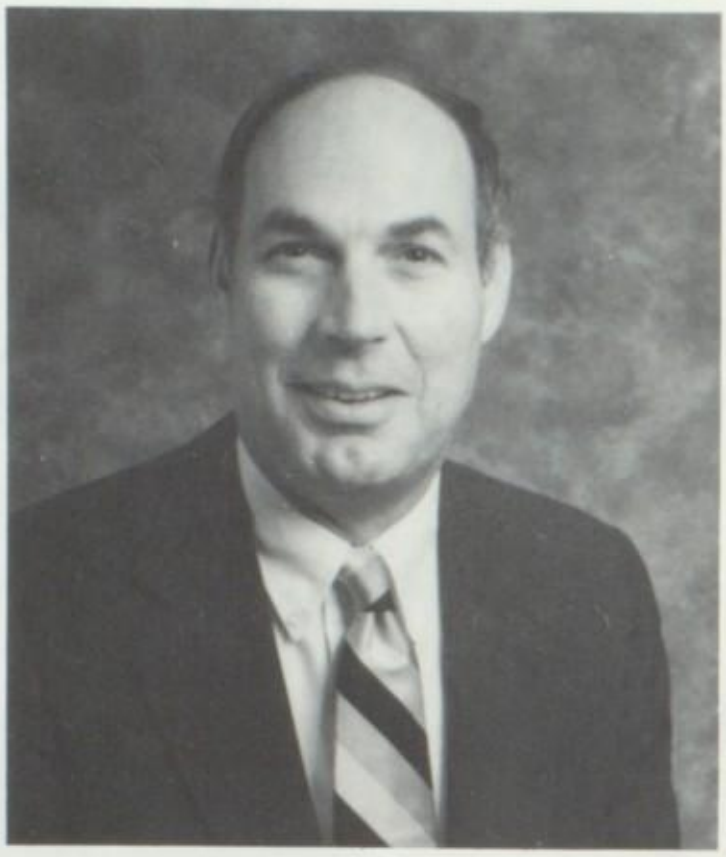
TEACHERS DO IT WITH CLASS



Administration



PRINCIPAL'S MESSAGE
Robert Francy

During this past year, we have come together in many ways. We have met as teachers, counselors, administrators, parents and students. We have joined as members of audiences cheering the accomplishments of others. We have shared the joys and elations of the successes of our athletic teams and we have felt pride in the artistic and scholastic achievement of our school.

We have shared feelings of despair. We have laughed together and argued with one another. We have discovered the multiplicity of ways in which we are alike, and have accepted our differences without reservation. Perhaps most importantly, we have come to respect each other for what we are ... and what we are not.

Personally, I hope that all of you continue to excel in your own individual ways. I am grateful for your achievement ... hopeful for your future. As you go forward, you take with you our best wishes and highest hopes. Good luck!

The musical "Camelot" is the most spectacular show Estancia's Drama Department has presented. Three performing arts departments, drama, dance, and music, worked together under the direction of Barbara Van Holt to produce this most magnificent musical.

Earlier in the school year, the Estancia Thespians performed the classic comedy "You Can't Take It With You" (see pages 118-119). The ensemble work and comic timing were superb and every night there was a standing ovation.

Water polo is increasingly becoming one of the most popular sports in the United States. It has also become a crowd-attracting sport at Estancia. Fans at the games never saw a boring match, because these strong guys kept the games moving at a fast pace. This led to a good season. Congratulations, water polo, for making a splash in your sport.

The girl's varsity and junior varsity teams stood 2 wins and 5 losses at the end of the season. Mrs. Ramsey feels this was because so many girls came onto the team so late in the season. Mari Benavides broke the school's course record of 20:23 with her time of 19:33. There were 26 girls on the team at the end of the season. Mrs. Ramsey was pleased to have had such a large team. Some of the girls aren't pictured because of coming onto the team late. The varsity team consisted of: Mari Benavides, Dana Julian, Michelle Stewart, Cindy Freund, Jenny Weaver, Staci Yokomi, and Suzy Garcia.

Estancia basketball has always been thought of as one of the best in the southern California area. This year's team didn't let us down. In tournament play the team did not walk away without a trophy. And league play was exciting as always. Once again the team lived up to its reputation.

J V And Frosh-

Even though the spotlight was on Varsity, the J.V., Sophomore, and Freshmen teams were doing just as well in their own games. Each team had their own tournaments and collected some trophies themselves, then went on to league play. It looks as if our good basketball teams will keep up for a long time.

This year's varsity volleyball team is sure to uphold Estancia's reputation. Steve Pinckney, Bill Bonnett, and Dan Murray are returning starters. Also, Ron Brazell and Craig Covey are ready to fill in the middle blocking position. Erin Wright will be doing the very crucial setting. Despite having some pre-season defeats, Estancia is now healthy and prepared to do battle with strong teams like Newport and Corona. Estancia presently is undefeated in league.

Boys' Superstars

Football-Brian Sherrard

Brian is a two year varsity letterman in football. He played linebacker on defense and led the team in unassisted and assisted tackles. He intercepted often and ran two back for touchdowns. He played fullback on offense and scored alot of points.

Cross Country-Chris Bube

This year, as a senior, Chris spent his fourth year on the cross country team. In a meet against Mesa in October, Chris broke the cross country record with a time of 6:10. He also placed fourth in league finals and third in the Costa Mesa invitational. He plans on running track in college.

Water Polo-Rich and Jim Devore

Jim and Rich are seniors who have been on water polo for their full four years at Estancia. They are experienced players and made the all-league team. Last summer they went to Taiwan for a tournament, and this year were the MVP's for the team.

Wrestling-Nick DiBuono

This year, as a senior, Nick placed in the top five of every tournament he participated in. In a tournament held in Las Vegas, he placed sixth out of wrestlers from five different states. Nick also helped out alot with the team.

Basketball-Fernie Trejo

As a senior on our varsity team, Fernie provided alot of their success. He was the best all around player, and could always be counted on when other players were in foul trouble. Fernie pulled down alot of rebounds and was MVP for the team.

Soccer-Erin Wright

Erin, a junior, played his second year on the varsity team this year. He was the best offensive player on the team, and scored often. He made the first team all-league, and the second team all-CIF.

Girls' Superstars

Tennis-Natalie Hastings

Natalie, a junior, is a three year varsity letterman on the tennis team. Last summer, by winning a local doubles tournament with her brother, she won a trip to New York to play in a bigger tournament. This season she and her doubles partner reached CIF play.

Cross Country-Mari Benavides

Mari, only a sophomore, had a great year in cross country. She broke the girls' cross country record by 50 seconds! She also placed fifth in the Costa Mesa invitational. She plans to continue running throughout her high school years.

Volleyball-Kellie Kane

This year was Kellie's second on the Varsity team. She is a setter with especially great setting ability, but is a well-rounded player, also. During the season, you could always count on seeing Kellie's name in the paper.

Basketball -Leslie Self

Leslie was the captain of the team this year and contributed alot of hard work as well. She was the high scorer and high rebounder for the year. She is a senior, and a three year varsity letterman.

Soccer-Jeanne Ablett

Jeanne spent her third year on varsity this year as a junior, and undoubtedly will lead the team again next year. She plays center half, and made the first team all-sea view league.

We regret not being able to include a superstar from every sport. Please keep in mind the outstanding athletes for the sports not included on this page. Thank you.

CROP

Coastline Regional Occupational Program (CROP) offers over 40 courses for students bound for college or the work force. Most CROP courses meet after school, but here at EHS classes in various computer disciplines are offered within the school schedule. Also, beginning on this campus and progressing to community workplace training sites are the "Preschool/Child Care" and "Health Occupations" courses.

No salary is paid a CROP student, but s/he receives school credits applicable toward graduation. College admittance offices traditionally favor applicants listing experience in one's declared major, and most employers will accept CROP training as their "experience required."

A few extra "fringe benefits" — the proper way to fill out an application, preparation of a resume and cover letter, mock interviews and interviewing techniques, job seeking skills, and assistance in seeking employment.

Students sign up for these courses with Mrs. Joan Palmer, CROP Career Guidance Technician, in the Career Center.

AFS

Marcelo Siqueiro, Gustavo Lazzarini, Brynjar Rugas, Jonas Logdberg, Yecla Perez, Ana del Poco

The foreign exchange program PIE (Pacific Intercultural Exchange) has made it possible for the following people to have the experience of visiting a foreign country.

Marcelo Siqueiro is a seventeen year old from Brazil. He stayed in Oregon for six months in 1983, and has attended The American School in Rio. Marcelo feels that ''to live in a different country with a different family helps you learn and grow a lot''.

Brynjar Rugas is a senior from Norway. He came to the United States because he ''wanted to learn how to speak English fluently, and to meet a lot of people''.

Gustavo Lazzarini is a sixteen year old sophomore from Brazil. He came to the United States to learn a new culture and language. Gustavo feels that life here is very fast paced, and hopes to teach English in Brazil someday.

Jonas Logdberg is a sixteen year old from Sweden. He enjoys waterpolo and swimming, but is majoring in economics at home. He came to the United States ''to learn about the Americans, and to get a better knowledge of whats going on over here.''

Yecla Perez is a fifteen year old from Spain. She enjoys going out with her friends. She came to the United States in hope of bettering her English skills, and to have many new experiences.

Molly Mound, Mrs. Brown, Andy Mound

Ana del Poco is a sixteen year old from Spain. She enjoys skiing, shopping and going to parties.

Molly Mound went to Peru for 10 weeks and lived in a family with one older sister and two younger breakdancing brothers. Andy Mound spent the summer in Chile with two younger brothers, who were not breakdancers.

Gumbys' cool

Well it's over, another year in the vast spectrum of time. These walls reflect us and our progress. We've grown through both triumphs and disappointments. Yet all in all, it's been fun. We've made memories, friends, and gained experiences that we'll carry with us for the rest of our lives. But, best of all we've made our mark!

Robert M. Thomson-HA HA HA

"We bid you goodbye . . . but we will never forget you."

The seven members of the Space Shuttle 51-L flight are: (back row, left to right) Mission Specialist El Onizuka, Teacher in Space Participant, S. Christa McAuliffe, Payload Specialist Greg Jarvis, and Mission Specialist Judy Resnik; (front row, left to right) Pilot Mike Smith, Commander Dick Scobee, and Mission Specialist Ron McNair.

January 28, dawned a clear and crisp 27 degrees. After a series of delays, the space shuttle, Challenger, was finally ready to take its crew of seven, including America's first teacher Christa McAuliffe, on their orbital mission. All seemed perfect as at 11:38am NASA proudly announced, "We have lift-off of the 25th space shuttle mission. And it has cleared the tower." The crowds below full of the crew's parents, spouses, friends, and schoolchildren cheered and waved American flags. Fifty-two seconds into the flight, NASA told Commander Scobee, "Challenger, go throttle up." All engines had reached full power and all systems were go. Eighteen seconds later, Scobee confirmed the order and the Challenger prepared to leave the earth's atmosphere for orbit. Seconds later an orange glow flickered between the shuttle's belly and the adjacent external fuel tank. In the seconds that followed, all that could be seen was a glowing fireball of orange, yellow, and red which engulfed the disintegrating spacecraft. The only things to emerge from the fireball were the two rocket boosters. While NASA officials were screaming, "RTLS! RTLS! (Return to launch site)" hoping what they had seen was not really true, the crowds below who had sensed the tragedy, hugged each other in comfort as the schoolchildren began to sob.

Three days later, the President and First Lady, attended memorial services for the seven dead heroes. In his address to the families President Reagan said, "We've learned again that America was built on heroism and noble sacrifice. It was built by men and women like our seven star voyagers who answered a call beyond duty. Dick, Mike, Judy, El, Ron, Greg, and Christa- your families and your country mourn your passing. We bid you goodbye, but we will never forget you."

They made their mark; how will we?
